The Gauntlet StepMill is easy to recognize - it's the piece of cardio equipment that looks brutal compared to all the others, with a revolving set of 8-inch stairs that closely duplicates the workout of actual stair climbing. Injection-molded plastic shrouding with darker, modern color scheme. If you have knee or joint issues, the Stairmaster is an effective way to get your heart racing and work major muscle groups without adding stress on your joints. What Muscles Does a Stairmaster Work? Stairmasters will work your quads, hamstrings, calves, and glutes and provide heart-racing and calorie-burning cardio. The benefits of a Stairmaster are numerous, including improving your heart health, strengthening your lungs, building lower body muscle strengthÃÂÂespecially your glutes, and strengthening bones. A Stairmaster allows users to climb upward at various speeds and durations. Low-Impact Workouts The most significant benefit of a Stairmaster is the low-impact, high-efficiency workout you can get on the machine. Now you can bring that same toughness to your home workouts with the totally redesigned GAUNTLET. Watch the Video Segment in the Photos Above The Series 8 Gauntlet StepMill by Stairmaster is a commercial-rated step machine with revolving stairs to provide a cardio workout experience to the exerciser of true stairclimbing. Includes 10" Touchscreen OpenHub Display Console (Note: some photos may show alternate consoles) Easy-to-read LCD console displays time, interval timer, level (1-20), heart rate, calories, floors Floors per minute, watt, Mets and training profile. The latest models¹ will present several challenging and engaging programs, including one of our favorites: historical challenges. Approved CMAS-PuÃ² can be purchased via ironcompany.com CMA California Multiple Schedule no. 4-12-78-0066A 10 "Touchscreen Features: The 10Ã¢ â ¬³ touchscreen display adds a premium look and experience to the Stairmaster line. Some things you have" Want to look at before buying are size, programs, warranty and price. Dimensions / floor space Some stairs are built thinking of commercial training facilities and perhaps too big and cumbersome for the home gym.
